CASA

Enjoy the fresh, cheerful mood of DE.CI Furniture placed differently in a small apartment.

FR.ST TABLE

Inspired from nature, and forrest trees. The FR.ST table is a fearless dining table designed to show the power of multiple cylindrical tubes standing together supporting a glass or marble table top. These cylindrical structure could come in either wood, black steel, or brass.

BU.KA CHAIR

Angular dining chair, that introduces a new concept of connection between the back and the base of the chair, creating a vivid upholstery line, that accentuates its simplicity.

This dining chair can fit with any dining table, due to its simple, yet appealing form.

CL.AW SOFA

A seating system, composed of different, comfy elements. These elements could be variously arranged according to the individual's need providing the space with both the functionality and the playfulness needed. The elements could come forming both; a traditional sofa (Two-Three Seater), or other flexible solutions, introducing new concepts of living room layouts.

CL.AW SOFA

A seating system, composed of different, comfy elements. These elements could be variously arranged according to the individual's need providing the space with both the functionality and the playfulness needed. The elements could come forming both; a traditional sofa (Two-Three Seater), or other flexible solutions, introducing new concepts of living room layouts.

BA.SC TABLE

A seating system, composed of different, comfy elements. These elements could be variously arranged according to the individual's need providing the space with both the functionality and the playfulness needed. The elements could come forming both; a traditional sofa (Two-Three Seater), or other flexible solutions, introducing new concepts of living room layouts.

SA.ND UNIT

A modular T.V unit, that allows complete freedom of design composition. The two main components, the slim upper shelf, and the bottom drawers. Each component could be placed on its own or combined together according to the individual's preference, allowing flexible and playful T.V unit formations.

The linear wooden drawers unit, could be placed on its own, or as a part of the SA.ND T.V unit, providing the space with a minimal yet functional storage.

The drawers unit could act as a pit for accessories or vases display, adding more life to the space.

02

RAW

Enjoy DE.CI Furniture placed playfully in a summer house, over looking a perfect sea view.

CL.AW SOFA

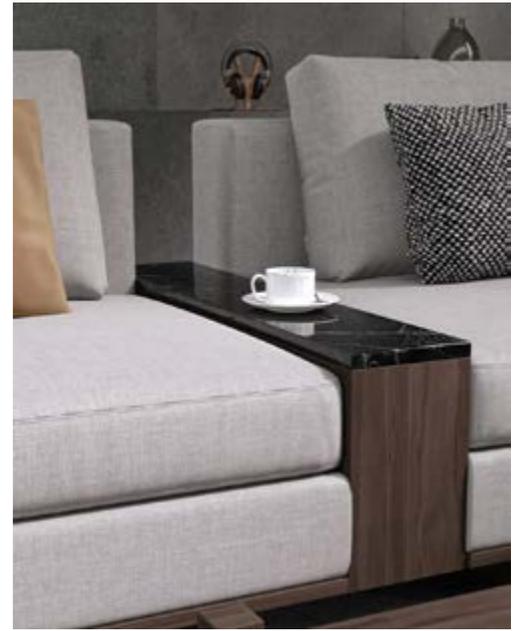

The CL.AW Family is a seating system composed of multiple comfy elements that could be variously arranged, according to the individual's need, providing the space with both; dynamic form and function needed.

OC.TA TABLE

A light, organic coffee table, with a filleted, edgy, marble, black glass, or wood top, resting on three wooden legs. This table could fit in any space, due to how flexible it is to place multiple ones together to serve a wider area.

TA.BE SOFA

A slim, functional, wooden table, is integrated into the TA.BE Sofa, with a marble top above.

A smooth blend of materials is created, providing the sofa with the ultimate function needed, making this sofa a perfect piece in any space.

OC.TA TABLE

Two OC.TA Tables overlapping, with different materials, providing the space with multi-leveled coffee table.

This coffee table exists in two different heights, with different top options, to create all possible compositions, according to the individual's preference.

THE PLAYFUL OVERLAP

SA.ND UNIT

A modular T.V unit, that allows complete freedom of design composition. The two main components, the slim upper shelf, and the drawers.

These components could be placed according to the individual's preference, creating a personalized, dynamic, T.V Unit.

THE FLEXIBLE FORMATION

FR.ST TABLE

A fearless dining table supported by two organic cylindrical legs, composed of black steel or brass cylinders. This dynamic leg form is visually seen through either transparent or black glass. This table fits confidently in any setting, giving the space a lavish, artistic vibe.

This interior space shows the beauty of natural materials, how raw and unfinished they may seem, yet powerful and appealing.

The composition of the chosen materials shows a homogeneous blend, that suits the mood of a summer house.

BU.KA DINING CHAIR

Angular dining chair, that introduces a new concept of connection between the back and the base of the chair, creating a vivid upholstery line, that accentuates the chair's simplicity.

This dining chair can fit with any dining table, due to its simple, yet appealing form.

Dimensions: 595x470x860mm

FR.ST TABLE

06

WHITE

It's all bright, and white in this chapter. Relax and take a look at DE.CI Furniture in this calming space.

MA.TI TABLE

Irregularly shaped and multi-functional tables that can be arranged to form clear geometrical shapes, either square or equilateral triangle. The sunken marble can be seen in all tables adding different levels and depth to the table.

RE.CT SIDETABLE

A side table from the RE.CT Family where materials like wood and glass or marble combined smoothly with a minimalist design. The squared wooden mass is either elevated on a brass structure or left standing gracefully on its own, with a sunken table top. This side table could be accentuated with a black glass, black marble or white marble top.

T. TABLE

A multi-leveled coffee table, with two marble tops elevated than the rest of the coffee table surface, and a wooden area that acts as a display if paired with accessories. The T.Table is designed to introduce a new connection between wood and marble forming a 'T' like connection. It comes in either black or white marble.

BU.KA CHAIR

Angular dining chair, that introduces a new concept of connection between the back and the base of the chair, creating a vivid upholstery line, that accentuates its simplicity. This dining chair can fit with any dining table, due to its simple, yet appealing form.
