DALLA MATERIA PRIMA ALLA CONFEZIONE

PROGETTATO PRODOTTO COLLAUDATO E CONFEZIONATO ALL'INTERNO DEI NOSTRI STABILIMENTI

Tutti i cicli produttivi vengono eseguiti internamente, con il supporto di una tecnologia sempre aggiornata ed adeguata alla lavorazione dell'acciaio inossidabile 316L, questo ci permette di mantenere il controllo estetico e dimensionale di ogni singolo componente; il risultato è un rubinetto con elevata affidabilità ma anche inconfondibili tratti artigianali

FROM RAW MATERIALS TO PACKAGING

ALL OUR TAPS ARE DESIGNED, MANUFACTURED, TESTED AND PACKAGED IN OUR PREMISES.

All production cycles are carried out internally, with the aid of state-of-the-art technology suitable for the processing of 316L stainless steel. This enables us to verify the appearance as well as every dimension of every single component. The result is a highly reliable tap that shows the unmistakable characteristics of craftsmanship.

LE COLLEZIONI

Tutte caratterizzate dalla materia, l'acciaio inossidabile che ne determina forme e profili mai esasperati nelle dimensioni, ma con una ricercata proporzione capace di trovare equilibrio tra comfort e bellezza.

THE COLLECTIONS

Stainless steel is the matter that determines designs and profiles. Never with extreme proportions, and always after elegant balance between comfort and beauty.
