Lamp LIRA

Luca Roccadadria design
Production year 2019

Studiata per colmare ogni spazio della casa, la collezione di lampadari Lira è composta da due diverse dimensioni di cappello, declinabili nella soluzione a sospensione, piantana, lampada a muro oppure da tavolo. La serie è caratterizzata da linee morbide, ma decise, enfatizzate dal tubino di metallo che ne delinea le forme lasciando trasparire, arricchendola, la luce emessa dalla sfera di alabastro. La minuziosa ed elaborata ricerca del materiale definisce ed esalta la collezione conferendole valore e unicità.

Designed to fit every room in the house, the Lira lighting collection offers two different lamp fixture "cap" sizes that can be made available in ceiling, floor, wall or table mounted versions. The series features soft, yet well-defined lines highlighted by the small metal edge that marks the lamp's contours, letting light pass through while enriching the luminous effect of the alabaster sphere. The detailed care and sophisticated search for the material defines and exalts the collection, bestowing value and uniqueness.

Sono trascorsi più di due millenni da quando gli Etruschi ne iniziarono la lavorazione e l'alabastro, pur tra numerose difficoltà, si lavora ancora a Volterra, cittadina d'arte etrusca, romana, medievale e rinascimentale in Toscana.

It has been more than two thousand years since the Etruscans began to work with alabaster, and in spite of numerous difficulties, this stone is still worked in Volterra, Tuscan city of Etruscan, Roman, mediaeval and Renaissance art.

Plus de deux millénaires se sont écoulés depuis que les Étrusques ont commencé à travailler l'albâtre et cette activité se poursuit aujourd'hui, malgré de nombreuses difficultés, à Volterra, une ville toscane d'art étrusque, romaine, médiévale et Renaissance.

Es sind mehr als zwei Jahrtausende vergangen, seit die Etrusker mit seiner Verarbeitung begannen, und der Alabaster wird - trotz zahlreicher Schwierigkeiten - auch heute noch in Volterra, einer etruskischen, römischen, mittelalterlichen und Renaissance-Kunststadt in der Toskana verarbeitet.
