Internal frame in painted metal, guaranteed for 10 years. Multidensity polyurethane foam padding covered in bonded acrylic fibre. Quilted armrest in polyurethane foam, with certified goose down filling. Polyurethane foam trapezoid backrest, containing a series of nickel-plated spheres which remain stable and in any position they are placed. The back cushion is filled with goose down in baffle boxes. Feet in polished aluminium with non-slip pads in clear thermoplastic. The covers in fabric or leather, are fully removable. Over time, the seating will acquire a softer, more ‘lived in’ look, which means that a slight ripple effect in the upholstery should be considered totally normal.

PANTONE 19-4305
Pirate Black

Flûte + Malibù cm. ø 100x32 - ø 45x48 - ø 45x58

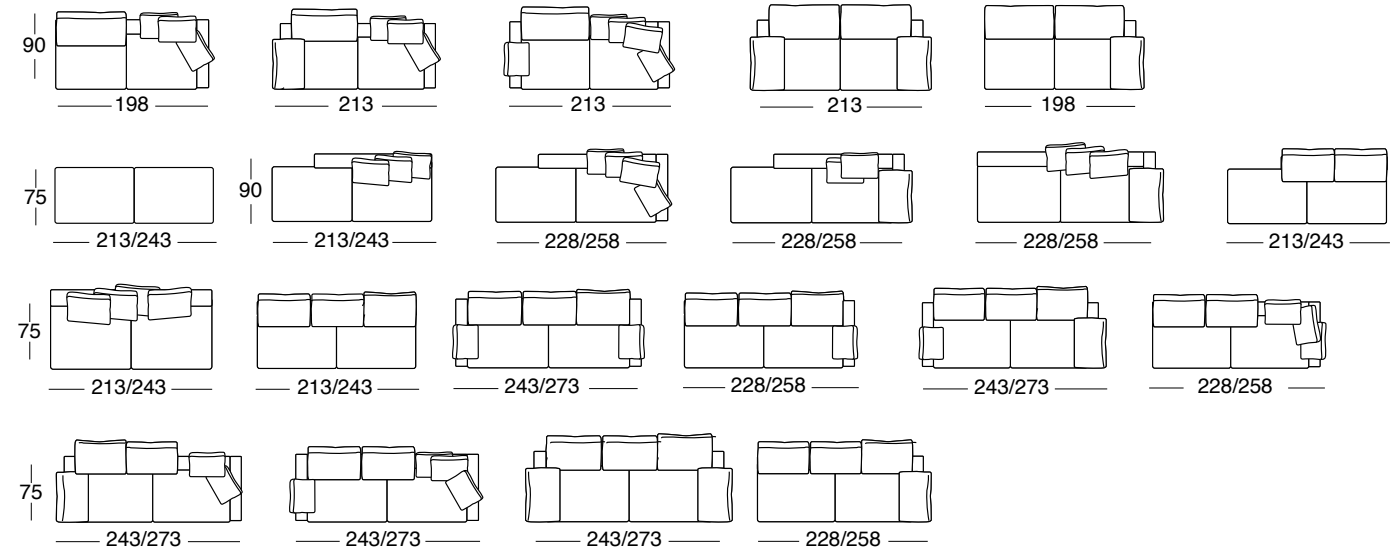

Hotello libreria cm. 180x35x49

Struttura portante in acciaio e parti perimetrali in legno imbottite in schiuma poliuretanica a quote differenziate e rivestite con tessuto protettivo accoppiato. Cuscini seduta in poliuretano espanso a quote differenziate e fibra poliestere termolegata, rivestiti con tela di cotone bianca. Cuscini schienale in piuma d'oca certificata e garantita rivestita con tela di cotone anti-piuma di colore naturale e con inserto interno in poliuretano schiumato a stampo predisposto per l'alloggio del meccanismo. Il movimento del cuscino schienale avviene tramite due snodi in nylon, frizionati, indipendenti tra di loro e con garanzia assoluta di funzionalità nel tempo; progetto e brevetto Dema. I cuscini volanti sono in piuma d'oca certificata e garantita. I piedi hanno sezione quadrata e sono realizzati in alluminio spazzolato, completi di antiscivolo in materiale termoplastico neutro. Rivestimento in tessuto o pelle. Svestibilità completa.

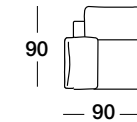

Note: - Con il cuscino schienale completamente arretrato la profondità di Babiloniadue aumenta di circa 12 cm. e l'altezza diminuisce di circa 10 cm. Con l'uso la piattaforma della seduta assumerà un aspetto più morbido e vissuto. Quindi il presentarsi di una leggera ondulazione dell'abito, sia in tessuto che in pelle, è da considerarsi assolutamente normale.

Cuscino . Cushion

Angolo . Corner unit

Steel frame with edges in wood, padded in differentiated density of polyurethane foam and upholstered with matching protective fabric. Seat cushions in differentiated density of polyurethane foam and heat-bonded polyester fibre, covered with white cotton fabric. Back cushions in certified and guaranteed goose down, covered with natural coloured feather-proof cotton lining and with moulded polyurethane foam insert, ready for fitting the mechanism. The sofa back is moved by means of two nylon smoothly working joints, independent between them, with absolute guarantee of functionality throughout time; designed and patented by Dema. The loose cushions are in certified and guaranteed goose down. Stands are square and made in brushed aluminum, equipped with neutral thermoplastic anti-slip material. Upholstered in fabric or leather. With fully removable covers.

Note: - When the sofa back is fully reclined, the depth of Babiloniadue increases by approximately 12 cms, and the height decreases by approximately 10 cms. - With use the seating will become softer and more "lived-in"; therefore a slight wrinkling of the fabric or leather is perfectly normal.

Struttura in metallo verniciato, garantita 10 anni. Imbottitura in schiuma poliuretanica a quote differenziate e rivestita in tessuto protettivo accoppiato. Cuscini volanti in poliuretano e dacron; bottoni in madreperla. Piedi in legno massello di frassino tinto noce; antiscivolo in materiale termoplastico neutro. Rivestimento in tessuto oppure pelle. Il progetto privilegia colori e materiali naturali come il cotone, il lino, la canapa, la lana. Svestibilità totale. Con l’uso la piattaforma della seduta assumerà un aspetto più morbido e vissuto. Quindi il presentarsi di una leggera ondulazione dell’abito è da considerare assolutamente normale.

Frame in painted metal, guaranteed for 10 years. Polyurethane foam padding in different densities, upholstered with a two-layer protective fabric. Loose cushions in polyurethane and dacron; mother-of-pearl buttons. Feet in solid ash in a walnut stain; neutral thermoplastic non-slip glides. Upholstered in fabric or leather. For this project, natural colours and materials such as cotton, linen, hemp, and wool have been used. Fully removable covers. With use the seating will become softer and more “lived-in”; therefore a slight wrinkling of the covering is perfectly normal.

Collezione di imbottiti con assetto variabile. Un meccanismo brevettato permette di spostare in avanti e/o indietro lo schienale, consentendo un uso diversificato della seduta. Da una posizione relax, con un semplice gesto, si può passare ad una seduta da conversazione. Struttura interna in metallo verniciato, garantita 10 anni. Imbottitura in poliuretano espanso a quote differenziate, rivestita in fibra acrilica accoppiata. Cuscini seduta in piuma d’oca con inserto di poliuretano. Cuscini schienale in piuma d’oca canalizzata. Movimento su leve di acciaio inox. Appoggi a terra in acciaio cromato. Il bracciolo cilindrico, costruito in poliuretano espanso, coperto da una soffice falda di piuma, contiene al suo interno una serie di sfere nichelate che consentono allo stesso di rimanere stabile e fisso in qualunque posizione lo si collochi. Tutti gli elementi sono completamente svestibili.

Tutti gli elementi della collezione possono essere associati a due caratterizzanti meccanismi che ne garantiscono l'assoluta variazione del "sistema comfort". Il primo permette la variazione dell'altezza d'appoggio dei cuscini schienale, ruotando le mensole posteriori in posizione verticale o orizzontale, grazie ad un inedito ed esclusivo meccanismo brevettato. Il secondo interessa la seduta alla quale viene consentito uno scorrimento in avanti aumentando così la profondità utilizzabile e permettendo una completa distensione del corpo. Le strutture sono in metallo e garantite 10 anni. I piedini sono in acciaio satinato. Le imbottiture della seduta sono in poliuretano espanso a densità differenziata, con trapunta in piuma, e i cuscini dello schienale in piuma d'oca canalizzata. Tutti gli elementi sono completamente svestibili.

All pieces in the collection may be associated with two special mechanisms that guarantee an absolute variation of the "comfort system". The first allows height variation of the back cushions via rotation of the rear brackets to a vertical or horizontal position, thanks to an innovative, exclusive patented mechanism. The second involves the seat, which may be slid forwards, thus increasing the usable depth and letting the body stretch out completely. All the structures are in metal and guaranteed for 10 years. Satin finish steel feet. Seat padding in polyurethane foam in different densities with quilted layer of goose down, back cushions in goose down in baffle channels. The covers can be removed from all pieces.
